INTRODUCTION

Features:

This user manual covers the installation of the SDFTA11 satellite receiver and the necessary steps to operate various features. This manual also explains special features available only in this receiver and will allow you to get full advantage of these features.

This receiver offers:

- High quality Video & Audio
- Fully MPEG-2, DVB compliant
- 4000 channels
- Electronic Program Guide (EPG)
- Teletext
- Subtitling
- 256 colours On-Screen-Display
- Timer function

Contents of the packaging:

After purchasing the receiver, unpack it and check to make sure that all of the following items are included in the packaging:

- SDFTA11 Receiver
- Remote control
- 2x AAA batteries

Remarks to the installation, use and care of the receiver:

<p>Place the product in a well-ventilated area.</p> 	<p>Don't install in the cold or under direct sunlight.</p> 
<p>Leave a minimum 10cm gap all around the product.</p> 	<p>Don't disassemble, repair, or reorganize the product.</p> 
<p>Don't place objects on top of the product.</p> 	<p>Don't place cups that hold water or other liquids on top of the product.</p> 

Remote Control:

: Turns power ON/OFF

: Mute sound

TV/Radio: Switches between TV and Radio

0~9: Numeric keys

: Switches back to previous channel

Menu: Enters menu

EXIT: Exits menu or function

OK/LIST: Confirms action or shows channel list

FAV: Show favourite list

INFO: Show info about current channel/program

PR+/PR-: Change channels or move to higher/lower item

Adjust volume or move left/right in the menu

EPG: Show the Electronic Program Guide

: Show the Audio window.

SAT: Show the satellite list

A~Z: Show the find window

: Moves up/down a page in list

: Show multi screen

SLEEP: Enter sleep mode

PAUSE: Pauses picture

ZOOM: Enter zoom mode

TV/AV: Switch TV/AV mode

: Teletext/subtitle

CONNECTIONS

Connecting TV, auxiliary and antenna to the receiver.

- Connect the TV to the receiver (TV OUT) using a scart cable
- Connect a video recorder or DVD-recorder to the receiver (Video out) using a scart cable
- Connect the (active) antenna to the receiver (RF IN)
- Connect the TV to the receiver (RF OUT)
- Connect a stereoset with coaxial and/or left/right input to the output on the receiver

INSTALLATION

Installation menu

1. Press **OK** key or **▲** key to pop up the "Input Password" dialogue. You can not enter into the menu unless the correct password is inputted. The default password is "0000". (The password may be turned off in the parental lock option in system setup.)
2. Press **▲/▼** keys to move the cursor up or down.
3. Press **EXIT** key to exit.

2.1 Antenna Connection

Press keys to select between Motor Antenna and Fixed Antenna.

2.2 Satellite List

1. Press **▲/▼** keys to choose the satellite. Press **OK** key to select and mark, press **OK** key again to cancel the selection and the mark.
2. If there is no satellite, the red colour and blue colour keys will be invalid.
3. Press **red** colour key to pop up the **Edit Satellite** window. Press **▲/▼** keys to move cursor up or down.

Name: User numeric keys to change the name of the satellite, please refer to the **Edit Channel Name**.

Longitude: You can press keys to switch between east longitude and west longitude. After pressing **OK** key, you can use numeric keys to edit the longitude, press **EXIT** key or the **▲/▼** keys to exit editing mode. The range of the longitude is from 1 to 180 degrees. If beyond this range, system will inform you "out of range" when you press **yellow** colour key on the RCU.

After setting, press **yellow** colour key to save and exit, while press blue colour key to exit without saving.

4. Press **green** colour key to pop up the **Add Satellite** window. Since the same operation as the above **Edit Satellite** window, here we don't explain any more.
5. Press **blue** colour key to pop up the dialogue "Are you sure to delete?". Select Yes button and press **OK** key to delete the selected satellite. You can cancel this operation by pressing **OK** key at the NO button.

2.3 Antenna Setup

Part A: Fixed

Suppose that you have selected Fixed Antenna in the **Antenna Connection** window.

1. **Satellite:** All selected satellites in the satellite list are displayed in this item. Press keys to select the satellite in circle. Or press **OK** key to pop up the dropdown list, then select the desired satellite in the list and press **OK** key to confirm.
2. **LNB Freq, Transponder, DiSEqC1.0, DiSEqC1.1:** The same operation as the above.
3. **22K, 0/12V, Toneburst, LNB Power:** You can press keys to select in circle.

Part B: Moter

Suppose that you have selected Moter Antenna in the **Antenna Connection** window.

1. LNB Type: Select the proper LNB type.

2. Motor Type: Select between DiSEqC1.2 and USALS. If you select DiSEqC1.2, the following Local Longitude and Local Latitude items will turn grey.

3. Delete All: Press **OK** key to pop up the dialogue "Are you sure to clear set satellite position of this tuner?". Press **OK** key at the Yes button to clear all the memories about the position of the satellites that has connected to the current tuner.

4. Motor Setting: Press **OK** key to the **Motor Setting** window.

Satellite: Press keys to select the satellite in circle. Or press **OK** key to pop up the drop-down list, then select the desired satellite in the list and press **OK** key to confirm.

Transponder: The same operation as the above.

Position No., & Save: The range is from 0 to 63. "0" delegates the original position.

You can select the proper value when you has rotated the antenna.

Go to X: Press **OK** key to pop up the drop-down list, select the proper position (reference or from 1to 63) to realize the selected position.

West <Save> East: Press key to turn west, while press key to turn east. Press **OK** key to pop up the dialogue "Are you sure to change this satellite's position?". Press **OK** key at the Yes button to save the current position, or press **OK** key at the No button to cancel the operation.

Recalculation: Press **OK** key to pop up the dialogue "Are you sure to change this satellite's position?". Press **OK** key at the Yes button to recalculation.

5. Limit Setup: Press **OK** key to pop up the **Limit Setup** window.

Limit Setup: Press keys to switch among Disable Limit, East Limit and West Limit.

Limit Setup: Move cursor to the Limit Setup button. You can press key to turn west, or press key to turn east.

Go to Reference: Press **OK** key to go to reference. If you select Disable Limit in the above Limit Setup item, this button will turn grey.

6. If select USALS, Delete All item will turn grey.

Local Longitude, Local Latitude: Press keys to switch between West and East, or press keys to switch between North and South. Press **OK** key to enter into the editing mode. Use **numeric keys (0-9)** to input the longitude or latitude, press **MENU** key or **EXIT** key to exit. The range of the longitude is from 0 to 180, while the range of the latitude is from 0 to 90. If the inputted value is not in this range, system will pop up a dialogue "Our of Range" when exit from this window. You can press **OK** key to close this dialogue.

7. Motor Setting: Press **OK** key to enter into the **Motor setting** window.

Satellite, Transponder: Press keys to select satellite or transponder, or press **OK** key to pop up the drop-down list and select in the list.

2.4 Single Satellite Search

1. Satellite :

Press keys to select the satellite in circle. Or press **OK** key to pop up the drop-down list, then select the desired satellite in the list and press **OK** key to confirm.

2. FTA Only: Press keys to select between Yes and No.

3. Scan Channel: Press keys to select among TV+Radio, TV Channel, Radio.

4. Network Search: Select between No and Yes. This item turns grey when Auto Scan is selected in the following Scan mode item.

5. Scan Mode: Press keys to select between Auto Scan and Blind Scan. Auto Scan is searching the preset transponders, while Blind Scan is to search the whole frequency band.

6. Search: Press **OK** key to start searching.

2.5 Multi Satellite Search

From the **Multi Satellite Search** window, you can search several satellites at the one time.

1. Satellite: All selected satellites in the satellite list window are displayed on the down part. You can press keys to switch among them.

2. FTA Only: Press keys to select between Yes and No.

3. Scan Channel: Press keys to select among TV+Radio, TV Channel, Radio.

4. Network Search: Select between No and Yes. This item turns grey when Auto Scan is selected in the following Scan mode item.

5. Scan Mode: Press keys to select between Auto Scan and Blind Scan. Auto Scan is searching the preset transponders, while Blind Scan is to search the whole frequency band.

6. Search: Press **OK** key to start searching.

2.6 TP List

1. Press **◀/▶** keys to select the proper satellite.

2. Press **red** colour key to pop up the **Edit TP** window.

Frequency, Symbol rate: Press keys to add or reduce by step one. Or press **numeric keys (0-9)** to input the desired value. The range of the frequency is 3000-13450, while the range of the symbol rate is 1000~45000. The inputted value is beyond this range, the value will return to the original value.

Polarity: Press keys to switch between Vertical and Horizontal.

3. Press **green** colour key to pop up the **Add TP** window. Since the same operation as the above **Edit TP** window, here we don't explain any more.

4. Press **yellow** colour key to pop up dialogue "Are you sure to delete?". Press **OK** key at the Yes button to delete the selected TP, or press **EXIT** key to cancel the operation.

5. Press **blue** colour key to pop up the **TP Search** window.

FTA only, Scan Channel, Network Search: Press keys to select the proper option. Press **OK** key at the OK button to start searching.

CHANNEL MANAGER

1. Press **OK** key or **▲** key in the Edit Channel menu to pop up the "Input Password" dialogue. You can not enter into the menu unless the correct password is inputted. The default password is "0000".
2. Press **▲/▼** keys to move the cursor up or down.
3. Press **EXIT** key to exit.

TV Channel list

1. Press **◀/▶** keys to select satellite.
 2. Press **▲/▼** keys to select the program that you want to play and then press **OK** key to view it in the small window.
 3. Press **FAV** key to select the favourites manager. Select the program and press **OK** key to pop up the favourite group list. In the list, select the group that you want to add into and press **OK** key, and then you will find the favorite mark is displayed at the right side of the selected program. Press **FAV** key again to exit from the fav mode, and you will find the FAV button return to the origin position.
 4. Press **red** colour key to select the Lock manager. Select the program and press **OK** key to mark this program with the Lock mark. You can cancel this mark by pressing **OK** key once more. Press **red** colour key again to exit from the lock mode, and you will find the Lock button return to the origin position.
 5. Press **green** colour key to select the Skip manager. Select the program and press **OK** key to mark this program with the skip mark. You can cancel this mark by pressing **OK** key once more. Press **green** colour key again to exit from the skip mode, and you will find the Skip button return to the origin position.
 6. Press **yellow** colour key to select the Move manager. Select the program and press **OK** key to mark this program with the move mark. Press **PR+, PR-** keys to move the cursor to the position where you want to locate and press **OK** key to confirm. Press **yellow** colour key again to exit from the yellow mode, and you will find the yellow button return to the origin position.
 7. Press **blue** colour key to enter into the **Edit channel** window.
- a . Sort (red colour key)** Press **red** colour key to pop up the Sort dropdown list.
- Name(A-Z):** The ascending order, omitting the \$ character, the number is ahead, then the capital letter, at last the lowercase.
- Name (Z-A):** The opposite order of the above Name (A-Z).
- Free/Scramble::** All FTA programs are listed ahead, while all scrambled programs are listed last.
- Lock:** all locked programs are listed at the last.

b. Edit (green colour key)

Press green colour key to select the Edit menu. Select the program and press **OK** key to pop up the **Rename** window. In **Rename** window, press **red** colour key to switch between capital letter and lower letter; press **green** colour key to delete the character on the cursor; press keys to move the cursor left or right; press **numeric keys (0-9)** to input the character, please refer to the down table. Press **yellow** colour key to save and exit, or press **blue** key to cancel and exit.

Numeric keys	Press numeric key repeatedly
1	.,*?!@1
2	ABC2
3	DEF3
4	GHI4
5	JKL5
6	MNO6
7	PQRS7
8	TUV8
9	WXYZ9
0	[space] _-0

If the name is empty, system will pop up a dialogue informing "Name" once **yellow** colour key is pressed. Press **OK** key to close this dialogue.

c. Edit (blue colour key)

In **Edit Channel** window, press **blue** colour key to select the Delete menu. Select the program and press **OK** key to mark this program with the deletion mark. You can cancel this mark by pressing **OK** key again. Press **EXIT** key to pop up the dialogue "Are you sure to save?". Select Yes button and press **OK** key to save, or select NO button and press **OK** key to exit without saving.

1.2 Radio Channel List

Since the same operation as **TV Channel List**, here we don't explain any more.

1.3 Delete All

Move cursor to the **Delete All** item, and press **OK** Key to pop up the dialogue "Warning! Do you really want to delete all channel?". Press **EXIT** key to pop up the dialogue "Are you sure to save?". Select Yes button and press **OK** key to save, or select NO button and press **OK** key to exit without saving.

SYSTEM SETUP

3.1 Language
